---

### SUMMARY

Web Developer with Significant Experience in MERN stack, I have worked with some organizations, ensuring a grounded approach to my profession, leveraging my expertise to optimize processes and deliver innovative solutions that meet business objectives.

---

### PROFESSIONAL EXPERIENCE

- Created pitch decks for three startups, focusing on clear messaging, market analysis, and investor engagement strategies.
- Worked as a freelance video editor for a startup, delivering high-quality video content for marketing and promotional campaigns.
- Provided content writing for a startup, creating engaging and targeted copy for blogs, websites, and marketing materials.
- Developed WordPress website for clients, delivering customized designs and functionality to meet their business needs.

---

### PROJECTS

- **Medicine Authentication DApp**: A decentralized application built to authenticate medicines using blockchain technology, ensuring transparency and preventing counterfeit products.
  - **Technologies Used**: React, Rust, Stellar Blockchain
  - **Key Contributions**: Developed the frontend with React, implemented basic Rust logic, and integrated the Stellar blockchain for secure and transparent transactions.
  - **Achievements**: Won 2nd place in amBITion hackathon, recognized for innovation in solving counterfeit medicine issues through blockchain.
- **Pulse - Hospital Management App**: A mobile application designed to streamline nurse management and improve patient experience in hospitals.
  - **Technologies Used**: React
  - **Key Contributions**: Built the UI and developed key features for managing nurse schedules and patient interactions, enhancing overall hospital efficiency.
- **amBITion Hackathon Website**: A website developed for the amBITion hackathon to manage event details, participant registrations, and updates.
  - **Technologies Used**: React
  - **Key Contributions**: Maintained and enhanced the website's codebase, improving functionality, user experience, and ensuring seamless participant registrations.
  - **Impact**: Contributed to the success of the hackathon by optimizing the website, leading to an increase in user engagement and smooth event management.

---

### SKILLS

- **Professional**: Javascript, C/C++, Python, React,
- **Software**: Figma, VS Code, Git & Github
- **Soft Skills**: Video Editing

---

### EDUCATION

Bachelor of Engineering, Computer Science and Engineering

Sep 2023 - Jun 2027

Bangalore Institute of Technology

High School

Apr 2020 - Jun 2022

Air Force School

- 85% in PCM (Physics, Chemistry, Mathematics)
- NCC, Basketball Team Member

---

### ADDITIONAL INFORMATION

- **Languages**: English, Hindi.
- **Certifications**: Postman Student Expert, Google Gen AI.
- **Awards/Activities**: Won a science hackathon, Won a national level hackathon, Organised a hackathon.
